## DETAILED ACTION

### *Response to Amendment*

This Office Action is responsive to the Amendment filed February 28, 2006. The following rejections are overcome:

- Claims 1, 9–15, 17–19 & 21 are rejected under 35 U.S.C. 102(e) as being anticipated by Fuglevand U.S. patent No. 6,468,682.
- Claims 2–8, 16 & 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fuglevand U.S. patent No. 6,468,682.

However, claims 1–21 are newly rejected under 35 USC

### *Claim Rejections – 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1–21 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for independently–acting compliant members such as springs and member 70 depicted in Figures 5–7, does not reasonably provide enablement for other compliant members such as memory

metals and other elements that are capable of assuring continuous and robust electrical contact between the separator plate and the membrane electrode assembly. In other words, the instant claims relate to an extremely large number of possible independently-acting compliant members. The claims contain a plethora of options or possible permutations and provisos that are not supported by the specification. Therefore, the specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims. Appropriate correction is required.

*Response to Arguments*

Applicant's arguments see pages 7-15, filed February 28, 2006, with respect to the rejections of claims 1-21 have been fully considered and are persuasive. The rejections over Fuglevand have been withdrawn.

Art Unit: 1746
